Shreya Shah is a second-year student at the University of Waterloo's program of Biomedical Sciences. Shreya has been tutoring for more than 2 years as she inspires and motivates students to become the best versions of themselves. She aspires to pursue a career in the field of medicine as a pediatrician.

She looks forward to experiencing the journey as she makes her name for herself. Shreya is also passionate about playing sports like volleyball and dancing as she does so in her free time. She loves to hang out with her loved ones and has a desire to travel the world. Shreya has thus far been to India, Seattle, Ohio, New York, Vancouver, Pennsylvania, Dominican Republic, and Cuba as she resides in Ontario.

## About the Lesson:

Our first lesson will consist of planning where we break down concepts and organize our time together. This includes planning what we each do during each class, and how much work will be assigned and taught. Throughout the first few classes, I will assess the student's learning to make sure to teach and break down lessons so that the best learning environment is provided.

## Languages Spoken:
